

Barrier Materials for Rigid Packaging 2017 to 2021

Section I:

Introduction

- A. Barrier materials for rigid packaging defined
 - 1. Barrier
 - 2. Aluminum sheet and steel sheet
 - 3. Glass
 - 4. Extrudable resins
 - 5. Fluid coatings
 - 6. Air coatings
 - 7. Vacuum-deposited coatings
 - 8. Rigid packaging
- B. Study organization
- C. Methodology
- D. Geographic regions
- E. Conventions

Section II:

Technology

- A. Barrier principles
 - 1. Temperature dependence
 - 2. Humidity
 - 3. Material thickness
 - 4. Coatings
- B. Emerging technology
 - 1. Oxygen absorbers
 - 2. Nanocomposite technology in rigid packaging
 - 3. Substrate surface design
 - 4. Sol-gel coatings
 - 5. Polyglycolic acid resin (PGA)
- C. Aluminum sheet
 - 1. Aluminum supply
 - 2. Aluminum sheet production
 - 3. Aluminum performance
 - 4. Aluminum sheet packages
 - 5. Aluminum packaging suppliers
- D. Container glass
 - 1. Glass supply
 - 2. Glass production
 - 3. Glass product performance

- 4. Glass packages
- 5. Container glass suppliers
- E. Steel sheet
 - 1. Steel supply
 - 2. Steel sheet production
 - 3. Steel sheet performance
 - 4. Steel sheet packages
 - 5. Steel packaging suppliers
- F. PVOH resin
- G. EVOH resin
 - 1. EVOH resin global supply
 - 2. EVOH resin production
 - 3. EVOH resin product performance
 - 4. EVOH-containing packages
 - 5. EVOH resin suppliers
- H. Specialty barrier coatings
- I. Transparent barrier coatings
 - 1. Transparent oxide-coated container supply
 - 2. Transparent oxide-coated container production
 - 3. Transparent oxide-coated container performance
 - 4. Transparent oxide-coated packages
 - 5. Transparent oxide-coated container suppliers
- J. Polyvinylidene chloride (PVDC) resin
- K. Metal coatings
- L. AMAB resin
- M. Nylon resin
 - 1. Nylon resin supply
 - 2. Nylon resin production
 - 3. Nylon barrier performance
 - 4. Nylon-containing packages
 - 5. Nylon resin suppliers
- N. PET resin
 - 1. PET resin supply
 - 2. PET resin production
 - 3. PET resin performance
 - 4. PET resin packages
 - 5. PET resin suppliers
- O. Polychlorotrifluoroethylene (PCTFE) resin
- P. COC resin
 - 1. COC resin global supply
 - 2. COC resin production

3. COC barrier performance
4. COC-containing packages
5. COC resin suppliers

Section III:

Market Trends and Projections

- A. Drivers and trends
 1. Macro environment
 2. Consumer drivers
 3. Drivers specific to the rigid packaging industry
- B. End-use packaging – beverages
 1. Beer
 2. Carbonated soft drinks
 3. Carbonated water
 4. Energy drinks
 5. Juice
 6. Milk
 7. Ready-to-drink (RTD) coffee
 8. Ready-to-drink (RTD) tea
 9. Spirit mixers
 10. Spirits
 11. Sports drinks
 12. Water
 13. Wine
- C. End-use packaging – food
 1. Fruits and vegetables
 2. Meat
 3. Nutraceuticals
 4. Pasta
 5. Sauces and condiments
 6. Soups
 7. Other food
- D. End-use packaging – non-food
 1. Household products
 2. Personal care
 3. Pharmaceutical
 4. Other non-food
- E. Barrier materials summary
 1. Barrier materials volume summary
 2. Barrier materials value summary
- F. Glass
 1. Glass volume by end-use

2. Glass packaging market value
 3. Container glass volume by geographic region
- G. PET resin
1. PET resin volume by end-use
 2. PET container market value
 3. PET resin volume by geographic region
- H. Steel
1. Steel sheet volume by end-use
 2. Steel packaging market value
 3. Steel volume by geographic region
- I. Aluminum
1. Aluminum volume by end-use
 2. Aluminum sheet market value
 3. Aluminum volume by geographic region
- J. Transparent barrier
1. Transparent barrier volume by end-use
 2. Transparent barrier market value
 3. Transparent barrier bottle volume by geographic region
- K. Nylon resin
1. Nylon resin volume by end-use
 2. Nylon resin market value
 3. Nylon resin volume by geographic region
- L. EVOH resin
1. EVOH resin volume by end-use
 2. EVOH resin market value
 3. EVOH resin volume by geographic region
- M. COC resin
1. COC resin volume by end-use
 2. COC resin market value
 3. COC resin volume by geographic region
- N. All barrier materials
1. All barrier materials volume by end-use
 2. All barrier materials market value
 3. All barrier materials volume by geographic region

Section IV:

Supplier Profiles

Section V:

Glossary
