“Retort Pouches 2018 - 2022” is the definitive study of the global retort pouch market. The content encompasses industry drivers and trends, market statistics, and market forecasts.

Retort pouches are an established package type, so how are they able to continue such strong growth? High volume products such as rice and sauces continue to grow due to their sustainable value propositions of time saving microwaveability, good taste, and evolving new flavor introductions. Contributing to this strong base volume are fast growing products such as vegetables in retort pouches, which show that convenience and healthy eating aren’t mutually exclusive.

Where in the world is this retort pouch growth coming from? As expected, developing regions such as Asia generate high growth from their insatiable appetite for rice and sauces. However, opportunities also abound in developed regions such as Europe and North America, where entrees in retort pouches significantly reduce meal preparation and cooking time.

What Sets this Study Apart?

> Quantified market analyses of the global retort pouch market by volume (units) and value
> Detailed market forecasts and analyses for many segmentations, including food end-uses, pet food end-uses, geographic regions, and more
Market Intelligence Study from Allied Development

Retort Pouches 2018 to 2022
Global Markets, Drivers, and Forecasts

Learn About:
> The future of the retort pouch industry with detailed segment forecasts to 2022
> In-depth analysis of emerging trends, market conditions, and market drivers
> Current consumption volumes with projections to 2022

Who Should Buy This Study:
> Retort Pouch Converters
> Raw Material Suppliers
> Equipment and Machinery Suppliers
> Brand Owners
> Industry Analysts

What is included:
> Detailed analysis of the trends and drivers of this unique and challenging market with volume forecasts to 2022
> Detailed market data not available anywhere else
> Details of market opportunities and forecasts broken down by end-use segments and six (6) geographic regions

Market Matrix:
