

# Stick Pouches – 2009 to 2013

## Table of Contents

---

### Section I:

#### Introduction

- A. Stick pouch
- B. Geographic regions
- C. Methodology and organization

### Section II:

#### Executive Summary

- A. Stick pouch industry drivers
  - 1. Unique package characteristics
  - 2. Differentiation options
  - 3. Economics
  - 4. Environmental
  - 5. Consumer quest for convenience
  - 6. Infrastructure
- B. Technology
  - 1. Machine reliability
  - 2. Pouch design alternatives
  - 3. Product processing techniques
  - 4. Packaging materials
- C. Economic and environmental impact
  - 1. Economic impact
  - 2. Environmental impact
- D. Market
  - 1. Dry food market
  - 2. Wet food market
  - 3. Dry healthcare market
  - 4. Wet healthcare market
  - 5. Personal care and industrial market
  - 6. Geographic markets
  - 7. Stick pouch equipment market
- E. Summary

### **Section III:**

#### **Technology**

- A. Stick pouch machinery
  - 1. Reliability
  - 2. Filling rate
  - 3. Flexibility
  - 4. Film cost reduction
- B. Stick pouch design alternatives
  - 1. Seal configurations
  - 2. Spouts
  - 3. Easy-open designs
  - 4. Shaped pouches
  - 5. Functional pouches
  - 6. Stick pouch design alternatives
  - 7. Design alternatives summary
- C. Stick pouch material and structure alternatives
  - 1. Important performance characteristics
  - 2. Popular materials
- D. Technology for advanced food processing
  - 1. Aseptic packaging
  - 2. Retort processing
  - 3. Stick pouch handling systems
- E. Competitive response
- F. Suppliers

### **Section IV:**

#### **Economic and Environmental Impacts**

- G. Case 1: Stick pouch rollstock manufacturing (dairy creamer)
  - 1. Assumptions
  - 2. Economic results
- H. Case 2: Polystyrene cup rollstock manufacturing (dairy creamer)
  - 1. Assumptions
  - 2. Economic results
- I. Case 3: Lidstock rollstock manufacturing (dairy creamer)
  - 1. Assumptions
  - 2. Economic results
- J. Case 4: Stick pouch form/fill/seal (dairy creamer)
  - 1. Assumptions
  - 2. Economic results
- K. Case 5: Polystyrene cup/lidding form/fill/seal (dairy creamer)
  - 1. Assumptions

- 2. Economic results
- L. Case 6: Comparison of Case 4 and Case 5
  - 1. Material cost
  - 2. Maintenance supplies
  - 3. Plant margin and prices
- M. Case 7: Stick pouch life cycle analysis (LCA)
  - 1. Energy consumption
  - 2. Greenhouse gas releases
  - 3. End of life
- N. Case 8: Polystyrene cup/lidding life cycle analysis (LCA)
  - 1. Energy
  - 2. Greenhouse gas releases
  - 3. End of life
- O. Case 9: Comparison of Case 7 and Case 8
  - 1. Energy
  - 2. Greenhouse gas releases
  - 3. End of life
- P. Case 10: PE-coated paper rollstock manufacture (sugar)
  - 1. Assumptions
  - 2. Economic results
- Q. Case 11: Folding carton blank manufacture (sugar)
  - 1. Assumptions
  - 2. Economic results
- R. Case 12: Stick pouch form/fill/seal (sugar)
  - 1. Assumptions
  - 2. Economic results
- S. Case 13: Sachet form/fill/seal (sugar)
  - 1. Assumptions
  - 2. Economic results
- T. Case 14: Comparison of Case 12 and Case 13
  - 1. Material cost
  - 2. Labor
  - 3. Maintenance supplies
  - 4. Plant margin and prices
- U. Case 15: Stick pouch life cycle analysis (LCA)
  - 1. Energy
  - 2. Greenhouse gas releases
  - 3. End of life
- V. Case 16: Sachet life cycle analysis (LCA)
  - 1. Energy
  - 2. Greenhouse gas releases
  - 3. End of life

- W. Case 17: Comparison of Case 15 and Case 16
  - 1. Energy
  - 2. Greenhouse gas releases
  - 3. End of life

## **Section V:**

### **Market Trends and Projections**

- A. Stick pouch applications
- B. Drivers
  - 1. Unique package shape
  - 2. Food processing technology
  - 3. Differentiation options
  - 4. Consumer quest for convenience
  - 5. Direct consumption
  - 6. Pellet technology
  - 7. Product efficacy
  - 8. Economics
  - 9. Environmental
  - 10. Infrastructure
  - 11. Competitive response
  - 12. Billboard effect
  - 13. Child-resistant features
- C. Equipment market
  - 1. Installed base
  - 2. Geographic distribution
  - 3. Projection
- D. Market statistics and projections
  - 1. End-use – dry food
  - 2. End-use – wet food
  - 3. End-use – dry healthcare
  - 4. End-use – wet healthcare
  - 5. Personal care and industrial
  - 6. End-use summary
- E. Geographic segmentation
  - 1. Japan
  - 2. Europe
  - 3. North America
  - 4. Rest of the world
  - 5. Global
- F. Contract packaging

**Section VI:  
Equipment Supplier Profiles**

**Section VII:  
Contract Packagers**

**Section VIII:  
Glossary**
